

MISSOURI ENERGY BULLETIN

January 9, 2025

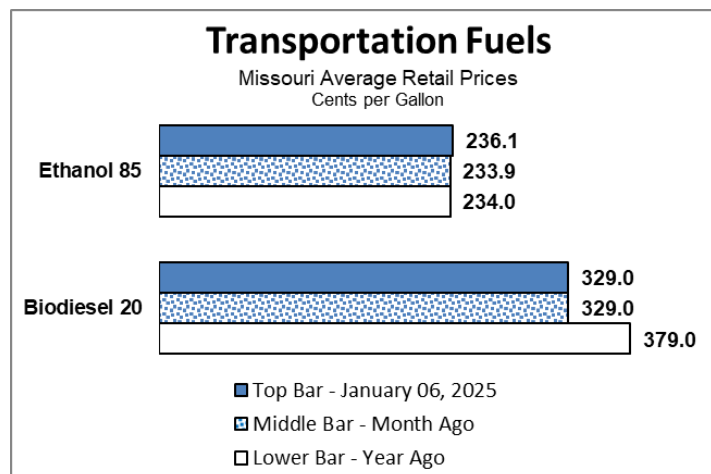

NOTE: Effective mid-April 2024, the federal government will report monthly propane prices during the non-heating season. Visit the [U.S. Energy Information Administration](https://www.eia.gov) for these data. These data provide better information than what the department can supply. The department will no longer separately publish average propane prices.

Additional data are available from the following sources:

- [Missouri Energy Bulletin Data Tool](#)
- U.S. Energy Information Administration
 - [This Week in Petroleum](#)
 - [Weekly Petroleum Status Report](#)
 - [Gasoline and Diesel Fuel Update](#)
 - [Short-Term Energy Outlook](#)
 - [Natural Gas Weekly Update](#)
 - [Weekly Natural Gas Storage Report](#)

For information on how to access data previously provided through the Missouri Energy Bulletin, refer to our [crosswalk file](#).

- On January 6, Missouri's average retail price for E-85 motor fuel, conventional motor fuel containing 51% to 83% ethanol, was approximately \$2.36 per gallon.¹
- On January 6, Missouri's surveyed retail price for B-20, diesel fuel containing 6% to 20% biofuel, was \$3.29 per gallon.

¹ Please note that the E-85 data sample is smaller compared to prior Energy Bulletins.

For more information on propane, please visit:

<https://dnr.mo.gov/document-search/be-prepared-propane-pub2868/pub2868>

To access previous issues of the Energy Bulletin, or to subscribe, please visit:

<https://dnr.mo.gov/energy/information/bulletins>

The *Missouri Energy Bulletin* is distributed twice a month by the Missouri Department of Natural Resources' Division of Energy. The Division of Energy collects E-85, B-20, and propane heating fuel prices from a sample of retail providers located throughout the state. The average price reported is based on these sample prices and may or may not reflect the actual price of a particular retail provider. To preserve confidentiality, price data are averaged if possible. The bulletin is a public resource made available to state government decision-makers and other interested individuals upon request and online at the division's web address. The department thanks each of the following in helping to provide accurate, timely data on fuel supplies and prices: the U.S. Energy Information Administration; the National Association of State Energy Officials; and Missouri's energy retailers. For more information, contact: MO Dept. of Natural Resources, Division of Energy, P.O. Box 176, Jefferson City, MO 65102; Phone: 573-751-2254; Fax: 573-751-6860; Email: energy@dnr.mo.gov; Web Address: <https://dnr.mo.gov/energy/information/bulletins>.

Box 176, Jefferson City, MO 65102; Phone: 573-751-2254; Fax: 573-751-6860; Email: energy@dnr.mo.gov; Web Address: <https://dnr.mo.gov/energy/information/bulletins>.

MISSOURI ENERGY BULLETIN

July 24, 2025

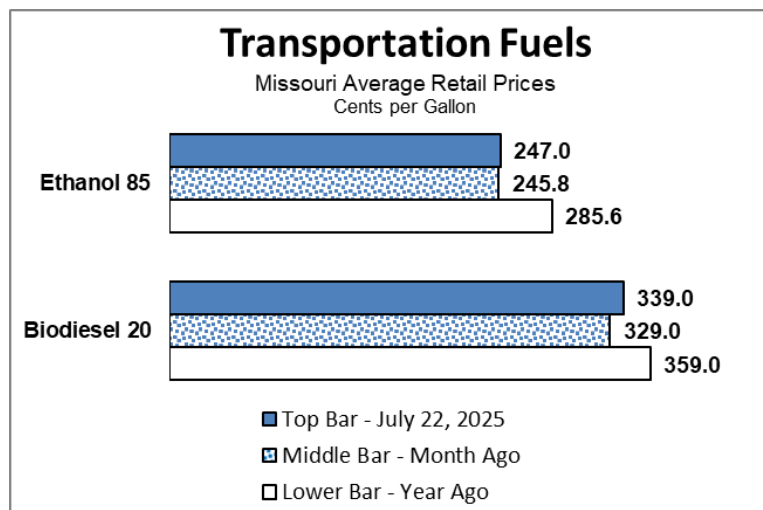

NOTE: Effective mid-April 2024, the federal government will report monthly propane prices during the non-heating season. Visit the [U.S. Energy Information Administration](https://www.eia.gov) for these data. These data provide better information than what the department can supply. The department will no longer separately publish average propane prices.

Additional data are available from the following sources:

- [Missouri Energy Bulletin Data Tool](#)
- U.S. Energy Information Administration
 - [This Week in Petroleum](#)
 - [Weekly Petroleum Status Report](#)
 - [Gasoline and Diesel Fuel Update](#)
 - [Short-Term Energy Outlook](#)
 - [Natural Gas Weekly Update](#)
 - [Weekly Natural Gas Storage Report](#)

For information on how to access data previously provided through the Missouri Energy Bulletin, refer to our [crosswalk file](#).

- On July 22, Missouri's average retail price for E-85 motor fuel, conventional motor fuel containing 51% to 83% ethanol, was approximately \$2.47 per gallon.
- On July 22, Missouri's surveyed retail price for B-20, diesel fuel containing 6% to 20% biofuel, was \$3.39 per gallon.

For more information on propane, please visit:

<https://dnr.mo.gov/document-search/be-prepared-propane-pub2868/pub2868>

To access previous issues of the Energy Bulletin, or to subscribe, please visit:

<https://dnr.mo.gov/energy/information/bulletins>

The *Missouri Energy Bulletin* is distributed twice a month by the Missouri Department of Natural Resources' Division of Energy. The Division of Energy collects E-85, B-20, and propane heating fuel prices from a sample of retail providers located throughout the state. The average price reported is based on these sample prices and may or may not reflect the actual price of a particular retail provider. To preserve confidentiality, price data are averaged if possible. The bulletin is a public resource made available to state government decision-makers and other interested individuals upon request and online at the division's web address. The department thanks each of the following in helping to provide accurate, timely data on fuel supplies and prices: the U.S. Energy Information Administration; the National Association of State Energy Officials; and Missouri's energy retailers. For more information, contact: MO Dept. of Natural Resources, Division of Energy, P.O.
